## AX 271

**THICK HANDLE • MEDIUM BARREL • FLARED KNOB**

Made from the densest billets available, this bat has a tapered barrel and thicker handle, making it one of the most popular bats ever.

## AX 274

**THICK HANDLE • MEDIUM BARREL • FLARED KNOB**

The barrel is similar to a 271 but the handle and knob design gives the hitter exceptional feel for being able to control the head of the bat.

## AX 243

**THIN HANDLE • LARGE BARREL • CLASSIC KNOB**

The model for those who want an end-loaded bat for power through the zone, a favorite among seasoned wood bat power hitters.

## AX i13

**MEDIUM HANDLE • LARGE BARREL • FLARED KNOB**

Its large barrel and precise balance makes this model a favorite for those who want more weight distribution.

## AX 141

**MEDIUM HANDLE • MEDIUM BARREL • CLASSIC KNOB**

Similar to the 110 but with a slightly longer barrel and a classic knob. This bat is great for players transitioning from aluminum to wood.

## AX 118

**MEDIUM HANDLE • MEDIUM BARREL • NO KNOB**

For the player that doesn't like the traditional knob and prefers a more comfortable no-knob with a flare at the end of the handle.

## AX 110

**MEDIUM HANDLE • MEDIUM BARREL • CLASSIC KNOB**

This nicely balanced model has a slightly flared knob for better bat control. This model delivers a powerful hit with more ease.

## AX 34

**MEDIUM HANDLE • MEDIUM BARREL • FLARED KNOB**

Engineered to have a comfortable grip similar to the 271 with a longer barrel for an extended sweet spot.

## AX 26

**THIN HANDLE • LARGE BARREL • CLASSIC KNOB**

Similar to the i13, this model has a flared handle and a larger barrel. Made from denser wood to give players greater pop upon contact.

## AX 25

**MEDIUM HANDLE • LARGE BARREL • WIDE FLARED KNOB**

A big barrel bat with more weight below the hands to help distribute the weight for greater balance and comfort.

## AX 24

**THIN HANDLE • LARGE BARREL • CLASSIC KNOB**

One of our original designs and most popular models. This bat has set many professional records and is on display in Cooperstown, NY.

## AX 8

**THIN HANDLE • MEDIUM BARREL • FLARED KNOB**

Engineered by us, the handle has a slight flare at the knob and a long barrel that breaks late for a better feel. It has a slight end load to it.

## AX 7

**THIN HANDLE • LARGE BARREL • CLASSIC KNOB**

We also designed this model with a slightly flared knob and a large-longer barrel for those that want to drive the ball deep.

## AX 5

**MEDIUM HANDLE • LARGE BARREL • FLARED KNOB**

We developed this mean model to provide greater impact; the barrel size and knob are engineered for the power hitter.
